

Naba Lab for ECM Research

Multiple positions are available in the laboratory of Dr. Alexandra Naba in the Department of Physiology and Biophysics at the University of Illinois at Chicago.

The Naba lab uses cutting-edge proteomics and bioinformatics to decipher the roles of the extracellular matrix (ECM) in development, health, and diseases. You can find more detailed information about our research here: <http://nabalab.uic.edu>

Senior research positions (PhD level, M.Sc level, or B.Sc + 5 years of experience)

[Postdoctoral Research Associate in Bioinformatics or Computational Biology](#)

> Candidates should submit their CV, a cover letter and research statement, and contact information for three references to Dr. Naba.

[Postdoctoral Research Associate in Extracellular Matrix Research](#)

> Candidates should submit their CV, a cover letter and research statement, and contact information for three references to Dr. Naba.

[PhD-level Research Scientist in Bioinformatics or Computational Biology](#)

> Apply here: <https://uic.csod.com/ux/ats/careersite/1/home/requisition/3758?c=uic>

[Senior Visiting Research Specialist in Computational Biology](#)

> Apply here: <https://uic.csod.com/ux/ats/careersite/1/home/requisition/3816?c=uic>

Entry-level research positions

[Project manager - NIH HubMAP consortium](#). Ideal for a candidate with an interest in science and business administration!

> Apply here: <https://uic.csod.com/ux/ats/careersite/1/home/requisition/3907?c=uic>

[Visiting Research Specialist \(Laboratory technician\)](#)

> Apply here: <https://uic.csod.com/ux/ats/careersite/1/home/requisition/3850?c=uic>
