

**ABSTRACT TITLE:** The Common Pathways of Collagen, Proteoglycans, Glycoproteins, and Other Essential Matrix Components

**AUTHORS:** Kendra LaDuca<sup>1</sup>, Harry Potter<sup>2</sup>

**AFFILIATIONS:**

1. American Society for Matrix Biology
2. Hogwarts Center for Matrix Biology

**ABSTRACT BODY:**

The American Society for Matrix Biology is a community of researchers dedicated to understanding the structure and function of the extracellular matrix (ECM) in health and disease. ASMB provides opportunities to present and publish cutting-edge research at conferences and through the journals *Matrix Biology* and *Matrix Biology Plus*. Member-led committees foster leadership at all career stages, and workshops and training programs offer valuable professional development. An extensive award program recognizes excellence in matrix biology, with travel grants supporting equitable participation worldwide. Join ASMB for a collaborative community that advances impactful ECM science.
