

The Springer Book Series *Biology of Extracellular Matrix* presents the

ONLINE MINI-SYMPOSIUM

Advances and Future Perspectives of Proteoglycans in Stem Cells - From Development to Cancer

Hosted by Karin Forsberg-Nilsson, Martin Götte & Nikos Karamanos

This mini-symposium serves as a primer to the research field for master students, PhD students and postdocs and is a wonderful opportunity for the Extracellular Matrix Community to come together for fruitful discussions. Authors of the recently published book *Proteoglycans in Stem Cells – From Development to Cancer* present in short talks the major advances and future perspectives of their respective fields and in Q&A sessions we discuss open questions from the audience.
