

Gordon Research Conferences
frontiers of science

Elastin, Elastic Fibers, and Microfibrils

Elastic Tissues and Regulation of Growth Factor Signaling in
Development, Homeostasis and Disease

July 23 – July 28, 2023

**Southern New Hampshire University
Manchester, NH, USA**

Chair: Dianna Milewicz

Vice-Chair: Beth Kozel

- ❖ Biology of Tissue Elasticity
- ❖ Extracellular Modulation of Cell Signaling
- ❖ Technologies for Elastic Fiber Research
- ❖ Aortic Disease Pathogenesis
- ❖ Elastic Fiber Assembly and Structure
- ❖ Aging, Stiffness, and Calcification in the Aorta
- ❖ Functional Modifiers of Elastic Fibers
- ❖ Fibrillinopathies and Elastin-Related Diseases
- ❖ Biomechanics of Elastin Containing Tissue

GRC Program available online:

Submit abstracts by May 30, 2023 to be
considered for an oral presentation

Gordon Research Seminar

July 22-23, 2023

Chairs: Yanming Li, Muthu Lakshmi Muthu, Kirk Lau

Organized by and featuring talks from graduate students and postdoctoral fellows.
